Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 82-113, drawn to apparatus for powder coating in which substrates are transported by an endless path of driven platens. See note 1 below.

Group II, claim(s) 114-131, drawn to method for powder coating in which substrates are transported by an endless path of driven platens. See note 1 below.

Group III, claim(s) 132-141, drawn to method and apparatus for powder coating in which substrates are arranged on pairs of upper and lower platens.

Group IV, claim(s) 152-154, drawn to a carriage structure.

Group V, claim(s) 155-158, drawn to powder application carriage bearing product and non-product portions.

Group VI, claim(s) 159-162, drawn to platen comprising a vacuum chamber and electrical means.

2. The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: method and apparatus for powder coating in which substrates are transported by an endless path of driven platens.

3. Note 1: In Groups I and II, the special technical feature does not define a contribution to and over the known prior art, according to PCT Rule 13.2 and therefore method and apparatus further lack Unity of Invention. Specifically, GB 2402895 teaches a continuous path of platens on which substrates are transported in an electrostatic coating process.

4. A telephone call was made to Wm. Rowland on 12-3-09 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1792

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frederick J. Parker whose telephone number is 571/ 272-1426. The examiner can normally be reached on Mon-Thur. 6:15am -3:45pm, and alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Timothy Meeks can be reached on 571/272-1423. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
